Glycolic Cleanser
Removes dead skin & purifies

Glycolic Acid – a chemical exfoliant which enhances epidermal shedding, and increases cell turnover. It promotes synthesis of GAG’s and enhances penetration of active ingredients.

Tea Tree (Melaleuca Alternifolia) – known for its anti-inflammatory, anti-bacterial and anti-fungal properties and is often used to treat acne and its symptoms. Due to changes in pH slight tingling, sensitivity and mild peeling may occur with initial use, skin will normalise within 1-2 weeks.

Gentle Cleanser
Gentle enough for the most sensitive skins

Aloe Vera - known for its healing, anti-irritant and anti-inflammatory abilities. It acts to soothe, calm and nourish sensitive, inflamed skin.

Raspberry Vinegar - cleanses and provides additional antioxidants support for environmentally stressed skin.
D-Panthenol (Vit B5) – chirally correct form of pantotenic acid, provides healing and soothing abilities and prevents erythema
Actiphyte of Goji Berries – a rich form of vitamins, minerals and antioxidants, it’s an effective anti-irritant and anti-inflammatory ingredient

**L-Lactic Body Wash 9%**
*Non-irritating body wash that softens and hydrates. Improves skin texture and restores moisture. Reduces itchy, scaly skin*

L. Lactic acid - hydrating, anti-inflammatory
Aloe leaf juice - calming
D- Panthenol - Healing and Repairing

![Aloe vera plant](image)

**Glycolic Scrub 14%**
*Controlled skin exfoliation for a smoother, brighter complexion*

Glycolic Acid – a chemical exfoliant which enhances epidermal shedding, and increases cell turnover. It promotes synthesis of GAG’s and enhances penetration of active ingredients
Polypropylene Beads – break down with physical scrubbing to provide a gentle form of mechanical exfoliation
Jojoba & Nylon Bewads – non abrasive exfoliating beads promote a softer, smoother skin without irritation
Enzymatic Micro Peel
*Ultra gentle skin exfoliation for a smoother, brighter complexion*

- **Papain enzymes** – Proteolitic enzymes micro exfoliate to promote a softer, smoother skin without irritation
- **Niacinamide** – Antioxidant and anti-inflammatory
- **Camomile** – Soothing and calming
- **Hyaluronic acid** – Hydrating
- **Grape seed extract** – Antioxidant and strengthening
- **D–Panthenol (Vitamin B5)** – Healing and Repairing

![Papaya fruit](Papaya fruit)

Even Blend Serum
*Clarifies uneven skin tone & pigmentation*

- **Glycolic Acid** – a chemical exfoliant which enhances epidermal shedding, and increases cell turnover. It promotes synthesis of GAG's and enhances penetration of active ingredients
- **Daisy Flower Extract** – strong tyrosinase inhibitor and antioxidant
- **Wakamine** – reduces melanin production thus assists in the prevention and formation of pigmentation
- **Lotus of Japonicas Symbiosome** – slows down the formation of tyrosinase, has a similar lightening effect to Kojic Acid
- **Trehalose & Hydrolysed Vegetable Protein** – moisturises and repairs barrier function

Vitamin C
*Protects against free radical damage caused by the sun*

- **100% L-Ascorbic Acid** - stimulates the production of collagen, thus reduces the visible signs of aging. Increases the skins ability to resist UV induced damage and acts as mild tyrosinase inhibitor to even and fade unwanted pigment

Experts in skin
Retinol
Reverses, prevents & repairs the appearance of skin damage

SYN®-AKE - has excellent smoothing and fast anti-wrinkle appearance properties
Encapsulated Retinol- a multi-functional delivery system designed to improve the stability and reduce the irritation of retinol, uses micro-encapsulation technology to overcome photosensitivity and instability, ensures a more stable and effective delivery of Retinol into the skin
Plant Extracts-- reduces swelling and soothes reactivity of sensitive skin
Peptides (Purisoft) – protects skin against environmental stressors such as pollution and provides antioxidant support
Hydrogenated Olive Oil – excellent emollient capability, restores suppleness and flexibility to dry, rough skin

Rejuvenate 15
Reduces irritation and sensitivity. Provides antioxidant and photo protection
D-Panthenol – chirally correct form of pantotenic acid, provides healing and soothing abilities and prevents erythema
Lanablue – blue algae extract, rich in essential lipids, proteins, vitamins and trace minerals. It possesses retinoid like properties without the unwanted side effects, reducing the visible signs of premature aging and promoting skin rejuvenation
Aloe Vera - known for its healing, anti-irritant and anti-inflammatory abilities. It acts to soothe, calm and nourish sensitive, inflamed skin
Vitamin Concentrate – contains a combination of various vitamins and plant extracts designed to moisturise, replenish, strengthen and soothe the skin
IBR Snowflake- anti-aging technology which slows skin aging through down regulation of cell proliferation and improves the skins defence against extrinsic aging factors (free radicals). It is an ideal active to smooth skin and reduce appearance of wrinkles as it effectively inhibits muscle contractions
Peptides – protects skin against environmental stressors such as pollution and provides antioxidant support
Mala’kite - is a chemically hydrated copper carbonate that is used as a skin protector. Copper increases the amount of collagen and elastin produced by fibroblasts. It plays a role in the synthesis of keratin and provides a strong antioxidant benefit against free radicals
Duboisia Leaf Extract – supports and strengthens cell regeneration and stimulates collagen formation thus increases elasticity and smoothness of the skin. Also provides anti-inflammatory and anti-microbial properties
Magnolia Extract – has anti-inflammatory and anti-bacterial properties. Also provides antioxidant support
Metabiotic Resveratrol - increases anti-inflammatory activity and collagen synthesis thus reduces fine lines and wrinkles as well as firms and lifts the skin
ChroNOline – lipopeptide derived from the growth factor, improves structural support and reduces the appearance of fine lines and wrinkles. Makes the skin appear smoother, firmer and more even
Bioplasma FA – increases hydration of cells, and acts on cell repair while improving moisturisation
Eye Believe
Firms, brightens and refreshes

SYN®-AKE - has excellent smoothing and fast acting anti-wrinkle appearance properties
Quercus Suber Extract – provides an instant smoothing and lifting effect
Irwinol – a botanical butter that moisturises, softens and smoothes
Hyaluronic Acid – a chemical ingredient that stimulates hydration and has provides excellent moisturisation to the skin
Canadian Willowherb – a plant extract that has soothing, anti-inflammatory and anti-microbial activity and is an excellent free radical scavenger

(Canadian Willowherb)

Moisture Defence Oily
Clarifying treatment cream with Vitamin B3.

Rainforest Harvest Mix – a mix of 3 fruit extracts (Lillypilly, Lemon Aspen & Davidsonia Plum) rich in AHA’s thus assist in mild exfoliation, reduction of sebum and minimises the appearance of pores; provides cell rejuvenation and moisturising abilities
Linked Papain – proteolitic enzyme, provides mild exfoliation and smoothes skin surface
Sebaryl – complex of amino acids, peptides, vitamin B, caffeine and Zinc salts which act together to regulate sebaceous gland secretion

Moisture Defence Normal
Intense hydration with antioxidants

SYN®-AKE - has excellent smoothing and fast acting anti-wrinkle appearance properties
Mountain Harvest Mix – a mix of leaf and flower extracts (Aniseed Myrtle, Mountain Pepper & Wild Rosella Flower) rich in essential oils that calm, rejuvenate and provide antioxidant support

Experts in skin
Canadian Willowherb – a plant extract that has soothing, anti-inflammatory and anti-microbial activity and is an excellent free radical scavenger

Kakadu Plum Extract – one of the richest sources of vitamin C, powerful antioxidant and free radical scavenger

Hylauronic Acid – a chemical ingredient that stimulates hydration and provides excellent moisturisation to the skin

Alpha Tocopherol Acetate (Covitol 110) – vitamin E derivative, provides antioxidant support and protects against free radical damage

**Moisture Defence Dry**
*Intense hydration with antioxidants*

SYN®-AKE - has excellent smoothing and fast acting anti-wrinkle appearance properties

Desert Harvest Mix – a mix of 3 plant extracts (Quandong, Desert Lime & Wattle Seed) rich in minerals, fruit acids, vitamins and phytosterols providing antioxidant support and protection against environmental damage

Leontopodium Alpinum Extract (Edelweiss) - excellent antioxidant and free radical scavenger, provides photo protection and minimises premature aging

Pirus Malus Extract (Ederline) – increases firmness of the skin and reduces the appearance of wrinkles

Crambe Abyssinica – contains a high percentage of fatty acids and provides excellent moisturisation and nourishment to the skin

Hylauronic Acid – a chemical ingredient that stimulates hydration and provides excellent moisturisation to the skin

Alpha Tocopherol Acetate (Covitol 110) – vitamin E derivative, provides antioxidant support and protects against free radical damage
Repair Balm
*Intense recovery balm, aids in the healing & repair process*

**Canadian Willowherb** - a plant extract that has soothing, anti-inflammatory and anti-microbial activity and is an excellent free radical scavenger

**Mala’kite** - is a chemically hydrated copper carbonate that is used as a skin protector. Copper increases the amount of collagen and elastin produced by fibroblasts. It plays a role in the synthesis of keratin and provides a strong antioxidant benefit against free radicals

**Lanablue** – blue algae extract, rich in essential lipids, proteins, vitamins and trace minerals. It possesses retinoid like properties without the unwanted side effects, reducing the visible signs of premature aging and promoting skin rejuvenation

**Actiphyte of Goji Berries** - a rich form of vitamins, minerals and antioxidants, it’s an effective anti-irritant and anti-inflammatory ingredient

**Kakadu Plum Extract** – one of the richest sources of vitamin C, powerful antioxidant and free radical scavenger

**Ceramide Complex**- a plant derived mixture of phospholipids that restore the lipid barrier of the stratum corneum, thus provides a balanced moisture content and improves skin condition

Hydrating Mask
*Intense hydration for fatigued & dull complexions*

**Sym Relief** - a synergistic blend of plant extracts (Ginger and Bisabolol) designed to reduce symptoms of irritation such as erythema and edema

**D-Panethenol** *(vitamin B5)*– chirally correct form of pantotenic acid, provides healing and soothing abilities and prevents erythema

**Vitamin Concentrate** – contains a combination of various vitamins and plant extracts designed to moisturise, replenish, strengthen and soothe the skin

**Raspberry Vinegar** - cleanses and provides additional antioxidants support for environmentally stressed skin

Laser Aid
*Cools, reduces redness & swelling. “Razor Aid” sensational for post shaving to stop the shaving rash/burn.*

**Aloe Vera Gel** - known for its healing, anti-irritant and anti-inflammatory abilities. It acts to soothe, calm and nourish sensitive, inflamed skin

**Canadian Willowherb** – a plant extract that has soothing, anti-inflammatory and anti-microbial activity and is an excellent free radical scavenger

**Witch Hazel Extract** – a botanical extract that has potent antioxidant, anti-irritant, anti-inflammatory and anti-bacterial properties
Vitamin Concentrate – contains a combination of various vitamins and plant extracts designed to moisturise, replenish, strengthen and soothe the skin
SymRelief – a synergistic blend of plant extracts (Ginger and Bisabolol) designed to reduce symptoms of irritation such as erythema and edema

**Age Defense SPF 50+**
*An advanced chemical and physical hybrid SPF. Containing vitamin B3 for maximum hydration*
*Lightweight moisturiser with SPF 15*

Tinosorb M - Provides Stabilization (also called Bisoctrizole) is a water soluble ingredient that is added to sunscreens to provide additional UV absorption. Like Tinosorb S, this ingredient can absorb both UVA and UVB rays. It also stabilizes other sunscreen compounds that absorb UV rays. This organic ingredient uses a unique blend of particulates to offer 3 powerful actions. By absorbing, reflecting and scattering the sun’s UV rays.

Tinosorb S- Is Photostable (also called Bemotrizinol) is an oil soluble ingredient that is capable of absorbing UVA and UVB rays, resulting in broad UV spectrum protection for the skin. One of the benefits of Tinosorb S is that it is a photostable compound. When combined with other sunscreen ingredients, it helps to avert molecule degradation caused by the photons present in the sun’s UV rays. This photostability enhances the sunscreen's effectiveness in protecting the skin.

Niacinamide - Vitamin B3 Strengthens the skins natural barrier function, enhances skin immune response and acts as a melanin transfer inhibitor.

B.H.T- Antioxidant. Assists with the protection of the skin from premature ageing.

**Hand and Body Lotion**
*A treatment moisturiser for the body to reduce the appearance of brown spots.*

Lanablue – blue algae extract, rich in essential lipids, proteins, vitamins and trace minerals. It possesses retinoid like properties without the unwanted side effects, reducing the visible signs of premature aging and promoting skin rejuvenation

Aloe Vera Gel – known for its healing, anti-irritant and anti-inflammatory abilities. It acts to soothe, calm and nourish sensitive, inflamed skin

Niacinamide – Antioxidant and anti-inflammatory
